

AO Spine Local Seminar— Treatment of Adult Spinal Deformity

February 19,
2021

Kurgan,
Russian Federation

Chairperson:
Sergey Ryabykh

REGISTER NOW!

Seminar

The AO Spine Local Seminar is 1/2 day compact educational event covering the fundamentals on a particular spine condition; today adult deformity.

With the help of cases studies, the surgical treatment and the appropriate technology for various conditions will be assessed.

The seminar is open to all residents and surgeons in training at the Russian Ilizarov Scientific Center for Restorative Traumatology and Orthopaedic in Kurgan.

Faculty

- Alexey V. Evsyukov, Russian Ilizarov Scientific Center for Restorative Traumatology and Orthopaedic, Kurgan
- Vladimir S. Klimov, Federal Center of Neurosurgery, Novosibirsk
- Denis Naumov, St. Petersburg Scientific Research Institute of Phthisiopulmonology, St. Petersburg
- Sergey G. Mlyavykh, Privolzhsky Research Medical University, Nizniy Novgorod
- Oxana Prudnikova, Russian Ilizarov Scientific Center for Restorative Traumatology and Orthopaedic, Kurgan
- Sergey Ryabykh, Russian Ilizarov Scientific Center for Restorative Traumatology and Orthopaedic, Kurgan

Learning objectives

- Analyze the history and physical examination of the patient presenting with different spinal deformity
- Order and interpret appropriate imaging to assess spinal balance, flexibility, and spinal cord anomalies
- Assess the patient in terms of natural history, medical limitations, patient concerns, and treatment expectations
- Use evidence-based decision making when recommending operative and nonoperative interventions
- Make the decision about type of surgical treatment use evidence-basics

Registration

The seminar is free of charge but registration is mandatory.
