

AO Spine Hospital-Based Seminar—Spine Cord Injury and Spine Trauma

March 19,
2021

Nizhny Novgorod,
Russian Federation

Chairperson:
Sergey Mlyavykh

REGISTER NOW!

Seminar

The AO Spine Hospital-Based Seminar is 1/2 day compact educational event covering the fundamentals on a particular spine condition; today Spine Cord Injury and Spine Trauma.

With the help of cases studies, the treatment of various conditions will be assessed from physical examination through imaging interpretation and surgical and non-surgical potential approaches.

The seminar is open onsite to all residents and surgeons in training at Nizhny Novgorod. A live transmission will be set-up.

Learning objectives

- Examine the injury, develop a plan of imaging examination
- Identify all elements of the injury and determine instability
- Evaluate risks and benefits of early surgical treatment
- Use evidence-based decision making in making recommendations for surgical and nonoperative interventions
- Understand quality of life challenges for patients after spinal cord injury and ways to improve it

Faculty

- Aleksandr Aleynik, Privolzhsky Research Medical University, Nizhny Novgorod
- Igor Basankin, Regional Clinical Hospital 1, Krasnodar
- Andrey Bokov, Privolzhsky Research Medical University, Nizhny Novgorod
- Dmitri Dzukaev, Moscow City Spinal Neurosurgical Center in Clinical Hospital No. 67, Moscow
- Ivan Morozov, Privolzhsky Research Medical University, Nizhny Novgorod

Registration

The seminar is free of charge but registration is mandatory.

English/Russian

Certificate

After the seminar, participants will receive via email an AO Spine certificate.

Agenda

08:00	08:25	Registration & group assignment	
08:25	08:30	AO Spine presentation	Sergey Mlyavykh
		Module 1: Upper Cervical Spine Trauma - AO Spine classification and my surgical algorithm	
08:30	08:40	Lecture	Aleksandr Aleynik
08:40	08:45	Group discussion	
08:45	09:00	Clinical case review + conclusion	
		Module 2: Subaxial Cervical Spine Trauma - AO Spine classification and my surgical algorithm	
09:00	09:10	Lecture	Dmitri Dzukaev
09:10	09:15	Group discussion	
09:15	09:30	Clinical case review + conclusion	
		Module 3: Thoraco-Lumbar Spine Trauma - AO Spine classification and my surgical algorithm	
09:30	09:40	Lecture	Igor Basankin
09:40	09:45	Group discussion	
09:45	10:00	Clinical case review + conclusion	
10:00	10:30	Break	
		Module 4: Consequences of a spinal cord injury - management in a short and a long term period after traumatic accident and spinal surgery	
10:30	10:40	Lecture	Ivan Morozov
10:40	10:45	Group discussion	
10:45	11:00	Clinical case review + conclusion	
		Module 5: Unstable lumbar and thoracolumbar junction injury - how to prevent implants loosening and failure	
11:00	11:10	Lecture	Andrey Bokov
11:10	11:15	Group discussion	
11:15	11:30	Clinical case review + conclusion	
		Module 6: Sacral Trauma - AO Spine classification and my surgical algorithm	
11:30	11:40	Lecture	Sergey Mlyavykh
11:40	11:45	Group discussion	
11:45	12:00	Clinical case review + conclusion	
12:00	12:15	Final remarks. Q&A	Sergey Mlyavykh
